

MAINTENANCE TEAM POSITIONS

ABOUT PI

PI is a company from Bosnia and Herzegovina with extensive experience in engineering, procurement, and construction of complex industrial process plants, primarily including plants for oil, gas, and petrochemical industries, which makes it the only company in our area with the longest tradition.

VACANT POSITIONS

We are looking for a **Maintenance Engineer/Technician/Superintendent** to join our team. In this role, you will be an integral part of our international team, delivering crucial on-site support.

RESPONSIBILITIES

- Inspect and assess equipment or system conditions to determine if they meet operational standards.
- Prioritize and schedule preventive or corrective maintenance tasks based on urgency and operational needs.
- Conduct tests to ensure equipment is functioning as expected. Approve equipment for use or flag for repairs if necessary.
- Maintain records of inspections, tests, and repairs. Update maintenance logs and prepare reports as needed.
- Work closely with operations teams to coordinate maintenance activities, minimizing downtime.
- Ensure all maintenance activities adhere to safety protocols and regulatory standards.

REQUIREMENTS

- Over 10 years of experience in maintenance and repair roles, preferably within refinery environments.

You can express your interest by sending your CV to hr@pi-energies.com
